Management Discussion and Analysis

BUSINESS REVIEW AND OUTLOOK

The Group is principally engaged in the provision of IT infrastructure solutions and IT infrastructure management services in Greater China Area (i.e. Hong Kong, Macau, Taiwan and all other parts of the People's Republic of China) and the Asia-Pacific region (including Japan, Korea, Singapore, Malaysia and Australia). During the Reporting Period, the Group established a joint venture with Dr. Keith C C Chan to develop and provide products, tools, solutions, services, and trainings to enable our customers the use of artificial intelligence.

On 8 October 2021, the Group completed the acquisition (the "Acquisition") of 70% of the issued share capital of ServiceOne International Holdings Limited ("S1IHL") which is principally engaged in the provision of IT infrastructure management services and it has become an indirect non-wholly-owned subsidiary of the Company. The financial results, assets and liabilities of S1IHL have been consolidated into the financial statements of the Company since 8 October 2021. Details of the Acquisition are set out in the Company's announcements dated 9 July 2021 and 8 October 2021 and the circular of the Company dated 17 September 2021.

BUSINESS REVIEW

For the six months ended 30 September 2022 (the "Reporting Period") as compared to the last corresponding period ended 30 September 2021 (the "Corresponding Period"), the Group's revenue increased by approximately 80.4% and our gross profit increased by approximately 92.9%.

OUTLOOK

Our Group considers that the current business environment for the short-to-medium term continues to be challenging and the Group's performance is likely to be affected by the negative business sentiment due to the ongoing global outbreak of the coronavirus epidemic, the uncertain global economy due to the continuing US-China tensions, the prolonged shipment schedules of various IT hardware due to global component shortage, the delay of customer projects due to COVID lockdown or customers' work from home policy, the slowed global supply chain due to China's COVID-19 lockdowns, the contraction in China's economy, and the global economic pressure of increasing inflation and interest rates. These factors might have a negative impact on our business volume, delay our products and services delivery, and exert pressure on our pricing terms and hence on our profit margin and profitability. Given the level of uncertainty on the duration of the economic crisis and the shape of recovery, there is a wide range of possible outcomes for the year.

Management Discussion and Analysis

Our Group dynamically adjusts our business prioritization plans for the short-to-medium term to reflect the shift in current customer demand and capture new business opportunities that help our customers navigate their challenges.

Regarding our IT infrastructure solutions business, we believe that enterprises and institutions will continue to adopt digital transformation to enhance operational efficiency and create digital business models by digitalizing or doing business online. Therefore, we continue to strengthen our product portfolio and support resources to provide our customers with the best-valued solutions and services. We remain focused on our long-term plan to drive strategic development and growth in three key business opportunities, namely:

- (i) Hybrid Cloud, Multi-Cloud & “as-a-Service”
- (ii) Container Technology & DevOps
- (iii) Cyber Security

These technologies enable us to provide higher value and more comprehensive total solutions and services to our customers through their digital transformation journey.

To capitalise on the opportunities mentioned above, we continue to strengthen our strategic relationship with our suppliers while enhancing our specialised technical expertise and domain know-how on the latest and proven infrastructure solutions to deliver larger-scale projects. We also strive to develop a more diversified customer base across private and public sectors.

Regarding our artificial intelligent business, we continue to develop and provide products, tools, solutions, services, and trainings to enable our customers the use of artificial intelligence in multiple business sectors and enterprises. Given the strong demand in artificial intelligence in the market, our artificial intelligence offerings will enhance the Group’s overall solutions portfolio and offerings, which aligns with the growth strategy of the Group.

Regarding our IT infrastructure management services business, we believe enterprises and institutions will continue to demand high-quality services across the growing Asia-Pacific region, including outsourcing, helpdesk, workflow automation services, project management, and hardware maintenance. Our recent expansion in Kuala Lumpur, Malaysia, improves our resources’ geographical distribution, providing resiliency to serve our customers in the uncertain global economy.

Management Discussion and Analysis

Therefore we continue to explore business opportunities to:

- (i) Expand our customer base to cover new industries across the Asia Pacific region.
- (ii) Create additional values for our customers by expanding our services portfolio to include consulting services and vertical retail solutions.

These initiatives enable us to provide higher value and more comprehensive services to more customers across more industries.

Further to the successful completion of the Acquisition, we will continue to explore any appropriate merger and acquisition opportunities to enhance our enterprise value. This will only be carried out in a cautious manner and has to be for the benefit of our Group and in the shareholders' best interest.

In view of the new normal business environment, the Group will continue to be cautious in managing the business risk; be well prepared to tackle the challenges in such an ever-changing economic and business environment; and monitor and execute the Group's strategy carefully to drive sustainable business growth. Furthermore, throughout the past two years' epidemic situation, we have taken prudent and decisive steps on cost optimization in line with the revenue model. We have further strengthened the Group to become a more resilient organization in dealing with the changing business environment in the post-COVID-19 local and global economy.

To conclude, we will continue to focus on our core businesses in providing innovative and integrated IT infrastructure solutions and IT infrastructure management services in both private and public sectors in the Greater China Area and the Asia-Pacific region in order to enable our customers to extract the maximum value from their IT investment and engagement.

Management Discussion and Analysis

FINANCIAL REVIEW

Revenue

The Group's revenue increased by approximately 80.4% from approximately HK\$228.3 million for the Corresponding Period to approximately HK\$411.8 million for the Reporting Period, which was primarily attributable to the net effect of the increase in demand from our customers for the IT infrastructure solutions during the Reporting Period as compared to the Corresponding Period and the contribution from the IT infrastructure management services amounted to approximately HK\$149.6 million. Such business has been included in the consolidated results of the Group since the completion of the Acquisition in October 2021.

Gross profit and gross profit margin

For the Reporting Period, our gross profit amounted to approximately HK\$67.1 million, representing an increase of approximately HK\$32.3 million, or approximately 92.9%, as compared to that of the Corresponding Period of approximately HK\$34.8 million.

The Group's gross profit margin for the Reporting Period was approximately 16.3%, representing an increase of approximately 1.1 percentage points as compared to that of the Corresponding Period of approximately 15.2%. The increase in the Group's gross profit margin was mainly due to the higher gross profit margin generated from IT infrastructure management services.

Other income and gains

Other income and gains increased by approximately HK\$4.1 million, or approximately 239.6%, from approximately HK\$1.7 million for the Corresponding Period to approximately HK\$5.8 million for the Reporting Period. The increase was mainly due to the net effect of (i) the COVID-19 government subsidies of approximately HK\$4.7 million received from various governments during the Reporting Period; and (ii) non-recurrent gain on lease modification and write back of other payable totalling HK\$1.1 million recognised in the Corresponding Period.

Management Discussion and Analysis

Selling expenses

For the Reporting Period, the Group's selling expenses amounted to approximately HK\$21.5 million, representing an increase of approximately HK\$1.5 million (or approximately 7.4%) as compared to Corresponding Period of approximately HK\$20.0 million. Such increase was mainly attributed to the increase in our staff cost.

Administrative expenses

The Group's administrative expenses for the Reporting Period were approximately HK\$32.5 million, representing an increase of approximately HK\$22.7 million (or approximately 232.6%) from approximately HK\$9.8 million for the Corresponding Period. Such increase was mainly attributed to the net effect of (i) one-off professional fees of approximately HK\$3.1 million in relation to the Acquisition recorded in the Corresponding Period; (ii) increase in amortization cost of intangible assets related to the Acquisition by HK\$1.9 million; and (iii) administrative expenses of HK\$24.3 million incurred by IT infrastructure management services during the Reporting Period.

Expected credit losses on financial assets

The Group has applied the simplified approach to financial assets to provide for expected credit losses prescribed by HKFRS 9 Financial Instruments. As a result, an impairment loss of less than HK\$0.1 million was charged for the Reporting Period (2021: a reversal of expected credit loss of less than HK\$0.1 million was recognised).

Finance costs

The Group's finance costs for the Reporting Period were approximately HK\$3.1 million, representing an increase of approximately HK\$3.0 million (or approximately 2,258.6%) from approximately HK\$0.1 million for the Corresponding Period.

Such increase was mainly caused by the recognition of interest expenses on convertible bonds of approximately HK\$2.7 million issued on 8 October 2021, for the purpose of the partial settlement of the Acquisition.

Income tax expense

The Group's income tax expense for the Reporting Period was approximately HK\$2.6 million, representing an increase of approximately 59.0% from approximately HK\$1.6 million for the Corresponding Period. After excluding the non-deductible interest expenses on convertible bonds of HK\$2.7 million incurred for the Acquisition and the non-assessable government subsidy of HK\$4.7 million, the effective tax rate for the Reporting Period was 18.7% (2021: 16.5%).

Management Discussion and Analysis

Profit attributable to owners of the Company

The profit attributable to owners of the Company increased by approximately 122.2% from approximately HK\$5.0 million for the Corresponding Period to approximately HK\$11.2 million for the Reporting Period, which was primarily attributable to the above mentioned effects.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding securities transactions by the Directors on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. After making specific enquiry of all the Directors, the Company was not aware of any non-compliance with the required standard of dealings regarding securities transactions by the Directors during the Reporting Period.

CORPORATE GOVERNANCE PRACTICE

The Company has applied the principles and code provisions in the Corporate Governance Code (the "Code") as set out in Appendix 15 to the GEM Listing Rules. In the opinion of the Board, the Company has complied with the Code during the Reporting Period, save for the deviation from such code disclosed below.

Pursuant to code provision C.6.1 of the Code, the company secretary of the Company should be an employee of the Company and have day-to-day knowledge of the Company's affairs. Mr. Lau Siu Ki, being the Company's company secretary, is not an employee of the Company. The Company has assigned Ms. Wong Yuk Lam, the general manager, finance of the Group, as the contact person with Mr. Lau Siu Ki. Taking into account that Mr. Lau Siu Ki has substantial experience in the corporate secretarial field, providing professional corporate services to Hong Kong listed companies and it is more cost effective to engage an external service provider, the Directors consider that it is beneficial to appoint Mr. Lau Siu Ki as the company secretary of the Company.

The Directors believe that good corporate governance provides a framework that is essential for effective management, successful business growth and a healthy corporate culture which would benefit the Company's stakeholders as a whole. The Directors will continue to review its corporate governance practices in order to enhance its corporate governance standard, to comply with the increasingly tightened regulatory requirements from time to time, and to meet the rising expectation of the shareholders and other stakeholders of the Company.
